

TOKELAU MAINSTREAMING 2009- JUNE 2012

Presenter: Jewel Toloa

Position: Project Support Officer

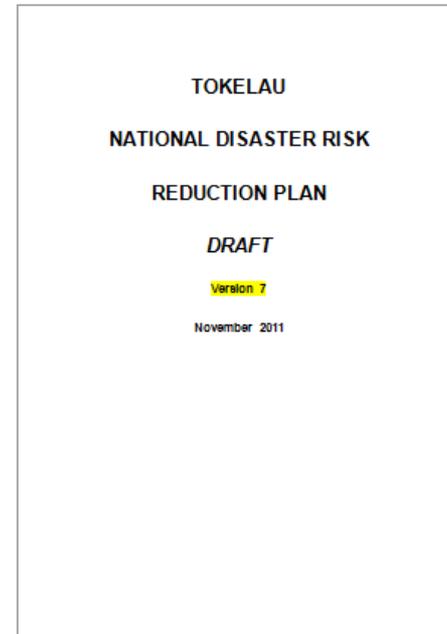

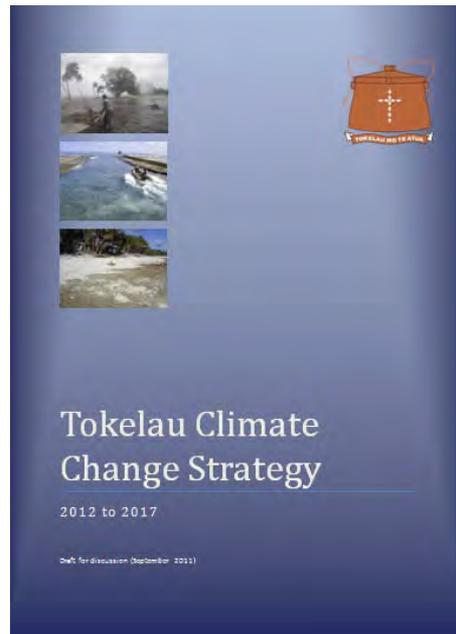

Government of Tokelau – Through Economic Development, Natural Resources &
Environment (EDNRE) & Ongoing Council of Govt (OCOG) &

With support from UNITAR C3D+ Program

Outcome I: Mainstreaming

1. Tokelau Climate Change Strategy (draft)
2. Tokelau National Disaster Risk Reduction Plan (draft)

Outcome 1: Mainstreaming...

- Two mainstreaming documents were already underway before PACC started.
- A water sector policy to be developed as a second stage Mainstreaming for PACC+.

cont

- - PACCC+ is therefore used to help progress the endorsement of the documents for action
- Rationale – Government has identified the need to have proper documents in place given the strong effects of Climate Change and vulnerability to Natural Disasters

Cont

- Departments in transition phase - Office of the On going Govt & Planning and Monitoring Unit taking the lead in strategic planning until Departments are stable and ready to take over
- Process – currently in translation stage before consultation with the villages and the council of elders of each village before submitting to General Fono for endorsement.

THANK YOU
